

**BURMA
TASK FORCE**

To Prime Minister Justin Trudeau, Minister Chrystia Freeland, and the Government of Canada,

Burma Task Force (BTF), along with our coalition of 38 Canadian and American organizations, and The Canadian Rohingya Development Initiative (CRDI), would like to extend our deepest appreciation and gratitude for recognizing the atrocities being committed by Myanmar against the Rohingya a Genocide.

As Canadians, we are proud that Canada has historically been a leader in human rights and continues to be at the forefront against oppression and injustice. We are in complete support of Canada's recognition and declaration of the Genocide against the Rohingya and believe this is a monumental step in stopping the genocide taking place inside Myanmar.

This is a fundamental move in the right direction and without your dedication and action such a step would not be possible.

We at BTF and the CRDI thank you immensely for your work and look forward to continue working with you in the near future to bring these atrocious to an end. We would be remiss if we did not thank the many MP's, Senators, and wonderful people at Global Affairs Canada that have been champions of the Rohingya cause, and most importantly, Canadians that have supported us and stood in solidarity with the Rohingya making sure that the Rohingya remained a priority and will continue to be a priority until they have their citizenship to their homeland returned and are living in dignity, security, and freedom.
